Thank you for choosing Kaspersky Internet Security for Android!

1. Before you install the application

Before installation, check that your mobile device meets the following requirements:

• Smartphone or tablet running under Android versions 4.x – 6.0
• Android Wear smartwatch
• Screen resolution of 320x480 pixels or higher
• 120 MB free disk space in the main memory of the device
• Intel Atom x86, ARM5, ARM6, or ARM7 platforms

2. Installing the application

• Scan the QR code to download the application directly to your device;
• Or enter
  http://antivirus365.net/kaspersky/android in your device browser and run the installation.

3. Activating the application

Activation is required in order to enable all of the pro- gram's features and to receive free technical support.
• Use the activation code provided on the Activation Card inside the product package (e.g. XXXXX-XXXXX-XXXXX-XXXXX).
• Tap 'Settings→ Additional→ Licensing' and enter the activation code in the appropriate field.

Frequently Asked Questions

Question	Answer
How many devices can I install the product?	You are entitled to use Kaspersky Internet Security for Android for a number of Android devices as indicated on the product package. – to get protection against phishing websites and malicious links.
What should I do if I purchase new device and want to transfer my security solution to it?	As long as you do not exceed the number of devices supported by your license, you can uninstall and reinstall the application whenever you need and use your activation code.
What should I do if an error occurs while attempting to perform an update?
